ITC professional in her workplace

Kelly Sikkema

DID YOU KNOW THAT...

Specialised employment websites unite job offers from a specific profession or sector. They are a useful tool both for companies, who need to recruit increasingly **specialised talent**, and for job searchers who want to find offers more focused on their areas of interest. These websites usually have a reduced number of jobs on offer, but they are more aligned with your professional profile and you will find **less competition**.

REMEMBER!

You will also find specific offers in general employment websites filtering by keyword, such as “**computing**”, “**telecommunications**”, “**tech**”, “**software**”, “**technology**”, “**IT**” and others related to your occupation.

FOCUSING

In Spain, the ICT sector accounts for **3.88% of the GDP** (2020) and includes over **24,900 companies**. Regarding occupation, this sector **employs about 557,500 people**.

01. Specialised employment websites

Authentic Jobs

<https://authenticjobs.com/>

Website of particular interest to those searching for job opportunities in Canada and the United States.

Computerjobs

<https://www.computerjobs.com/es/en/IT-Jobs/>

Career site where candidates may apply for offers in the ICT sector posted by companies mainly based in the United States, United Kingdom, Australia and Canada.

Elysia Talent

<https://elysiatalent.com/profesionales/>

Platform oriented towards ICT professionals, where candidates receive custom offers in the fields of computer science and telecommunications.

Manfred

<https://www.getmanfred.com/ofertas-empleo>

Manfred links companies and professionals by posting detailed job offers, which include tasks, duties, etc.

Tecnoempleo

<https://www.tecnoempleo.com/>

Besides a job search engine, this website has a section with IT training programmes.

Ticjob

<https://ticjob.es/>

Website listing job vacancies in the ICT sector. It also has a news section with up-to-date trends in the sector.

DID YOU KNOW THAT...

These companies aim to **select a candidate** to cover for a specific role for the customer company. Therefore, temporary recruitment agencies, head-hunters and service companies become a **key channel** to access certain offers and companies in the sector. Besides, they manage several job offers at the same time, so by applying through these companies you will have access to **offers from different clients**.

REMEMBER!

Business digitalisation has caused an exponential growth in the **demand for digital talent** in Catalonia. Because of this high demand, companies tend to reach out to specialised recruitment agencies. Connect with these agencies and seek your opportunity!

FOCUSING

The most in-demand professional profiles in this sector are **big data experts, engineers in artificial intelligence, software developers and systems architects**.

02. Recruitment and intermediary companies

Adecco

<https://www.adecco.es/ofertas-trabajo/cat-telecomunicaciones>

General consulting company that allows candidates to search for jobs in the ICT sector, filtering by telecommunications.

Arestes

<https://arestes.epreselec.com/Ofertas/Ofertas.aspx>

Recruitment company mainly focused on searching for ICT professionals in provinces such as Barcelona and Madrid.

Berger-Levrault

<https://www.berger-levrault.com/es/trabajar-en-berger-levrault/ofertas-de-empleo-y-practicas/>

Cross-sectoral computer programme developer offering job opportunities in different ICT profiles in several countries.

Between

<https://www.between.tech/>

International company dedicated to recruiting technology profiles.

Bismart

<https://bismart.com/es/trabajar-empresa-business-intelligence/>

Consulting company offering technology-based business solutions. They recruit professionals mainly in the fields of data science, business intelligence and business analytics.

Diderotech

https://outsourcing.idero.tech/?gclid=CjwKCAjw49qKBhAoEiwAHQVTo6w-8ZXMeFkMm0JVhQDQlHpf_ZNPp06Cse1bWZTX10XBZcHPoA68gRoC4gkQAvD_BwE

ICT consulting and recruitment company. Their headquarters are in Madrid and Santiago de Compostela (Galicia).

Digital Talent Agency

<https://dtagency.tech/>

Talent recruitment company specialised in the digital world and ICT.

Dyadigital

<https://dyadigital.com/>

Website mainly dedicated to selecting professionals in the fields of online marketing, data analysis and digital development.

Experis

<https://www.experis.es/es/buscar?page=1>

ICT consulting company. Among other services, they recruit ICT professionals. They also have their own career site.

Hays technology

<https://www.hays.es/impulsa-tu-carrera/empleo-it/>

Consulting company selecting IT professionals for a portfolio of vacancies in Spain. However, it is a British multinational company offering recruitment and human resources services in 33 countries worldwide, so they also list international vacancies.

Human Resources Consulting Services - HRCS

<https://www.hrcs.es/oferta-trabajo-perfiles-it>

Human Resources Consulting Services offers recruitment, professional development and consulting solutions to companies. They have a specific section dedicated to connecting ICT professionals and companies.

Keapps.

<http://keapps.com/candidates/#offers>

Recruitment and headhunting company specialised in ICT, with headquarters in Barcelona and Madrid.

Malthus Darwin

<https://jobs.malthusdarwin.es/jobs>

Consulting company dedicated to searching for and selecting IT profiles, with headquarters in Barcelona and Madrid.

Mur&Partners

<https://www.mur-partners.com/candidatos/>

Company dedicated to recruiting and selecting professionals specialised in the following sectors: engineering, technology, biotech and e-commerce.

Q-tech

<http://www.q-techrec.com/>

Website offering consulting, intermediation and recruitment services.

Talent Search People

<https://www.talentsearchpeople.com/>

Firm dedicated to selecting professionals on national and international levels. Besides job offers in Spain, they offer vacancies in other countries such as Cyprus, Portugal and Germany.

Tech Executive Search - TES

<https://www.techexecutivesearch.es/bolsa-empleo-executive/>

Experts in selecting executive tech profiles. They have an international career site.

TELUS International

https://jobs.telusinternational.com/en_US/careers/AllJobs/?3_53_3=5141

Technology company offering IT services as well as ICT jobs in 23 countries worldwide.

DID YOU KNOW THAT...

Self-applying to a company before they post a job offer is a good way to **anticipate their demand for personnel** and show interest in joining their team. For your self-application to succeed, you will need to **send a cover letter alongside your CV** and follow up on your application. Immediate results are not guaranteed, but you might be selected for unpublished offers and **reduce competition to a minimum**.

REMEMBER!

In the ICT sector, **the number of vacancies is higher than the number of professionals searching for a job**. Besides academic transcripts, companies value candidates with a knowledge of **English** and key skills such as communication, analytical thinking and self-learning skills.

FOCUSING

Barcelona is one of the world's digital capitals. The city has a rich **ecosystem of technology-based start-ups** and hosts several **leading events** in the sector. Besides, its district **22@** gathers technology companies and hubs.

03. Self-application

A) COMPANIES:

Software and consulting companies:

Accenture

<https://www.accenture.com/es-es>

Consulting company with an ICT department and offices in Barcelona. The section "Incorpórate" gives access to the available offers in each field of specialisation as well as services for younger profiles.

<https://i2cat.net/talent/>

Technology centre for Internet development. Their current fields of research include 5G, immersive technologies and Internet of Things (IoT), among others. They list their current vacancies on their career site.

Instituto de Investigación en Inteligencia Artificial - IIIA

<https://www.iiia.csic.es/en-us/>

The Artificial Intelligence Research Institute is a research centre within the Spanish National Research Council (CSIC) working with technologies focused on specific AI areas such as machine learning, automated reasoning, optimisation, open systems, human and computer interaction, and trust and reputation, among others.

B) SPECIFIC DIRECTORIES:

Associació d'Empreses d'Informàtica i Tecnologies de la Comunicació de Catalunya - ASEITEC

<https://www.aseitec.org/qui-som-aseitec/directori/>

Directory of companies affiliated to the Association of Computer and Communication Technology Companies of Catalonia.

Asociación de Parques Tecnológicos y Científicos de España - APTE

<https://www.apte.org/empresas>

Website bringing together science parks and partner companies.

Asociación de usuarios SAP - AUSAPE

<https://www.ausape.com/asociados/>

Website of the Spanish SAP Users Association. There is a list of all member companies by economic sector.

Data Prix

<https://www.dataprix.com/es/directorio/empresas>

Directory of Spanish companies specialised in software and ICT services.

Parc Tecnològic de Barcelona Activa

<https://bit.ly/3G4HorR>

List of companies currently based in Barcelona Activa's Technology Park.

Vulka

<https://telecomunicaciones.vulka.es/home.php>

Directory of companies related to materials, products and services in the field of telecommunications. Their website has a search engine.

DID YOU KNOW THAT...

Colleges and professional associations are organisations that **defend and promote the interests of a certain occupation or trade**. Most common services offered include: information, regulatory and legal advising, refresher courses and career site, where you may find suitable offers for your profile. Besides, by joining these organisations you will easily meet other professionals and **expand your contact network**.

REMEMBER!

Barcelona Digital Talent serves as a liaison between talent, companies and training centres. They offer subsidised **reskilling training programmes** and gather several organisations that offer online training. They also offer **orientation and access to events**.

FOCUSING

Blockchain technology in Catalonia generates **400 jobs** and a turnover of **9.46 million euros**. Predictions for 2022 estimate that 12,4 billion dollars will be spent on this technology globally.

04. Professional associations and leading training centres

A) COLLEGES AND PROFESSIONAL ASSOCIATIONS

@aslan

<https://aslan.es/>

The website of the Spanish Association of Providers of Network Systems, Internet and Communications lists the ecosystem's actors that actively contribute to the digitalisation of the business network: Cloud services, cybersecurity, etc.

Asociación de Empresas Operadoras y de Servicios de Telecomunicaciones - ASTEL

<http://www.astel.es>

The Association of Telecommunication Operators and Service Providers provides member companies with information on the latest news, mainly legislative, as well as a calendar of events.

Asociación de Técnicos de Informática - ATI

<http://www2.ati.es/spip.php?rubrique9>

The Computer Engineers Association of Spain gives their members access to a career site and the option to receive the vacancies they post via email.

Asociación Nacional de Empresas de Internet - ANEI

<http://www.a-nei.org/>

The Spanish Internet Companies Association allows professionals to be up-to-date with the latest news in the sector, access relevant grants and subsidies and participate in sectoral events and workshops which provide them with networking opportunities.

Col·legi d'Enginyeries Tècniques i Grau en Enginyeria Informàtica de Catalunya - COETIC

<http://www.coetic.cat/borsa-treball/llistat.php>

Website of the Official College of Technical Engineers in Computer Science of Catalonia. They have a career site open to the public.

Col·legi Oficial d'Enginyeria en Informàtica de Catalunya - COEINF

<http://enginyeriainformatica.cat/>

The Official College of Computer Engineering of Catalonia offers training programmes, opinion and popularisation articles and highlights the sector's events. In the professional sphere, they offer career and entrepreneurship counselling services, access to certifications, professional careers, etc.

Col·legi Oficial d'Enginyers de Telecomunicacions - COETC

<https://www.coetc.net/ca/>

Website of the Official College of Telecommunications Engineers of Catalonia. They have a career site for collegiate members and a compilation of useful resources to find a job in international organisations.

Col·legi Oficial d'Enginyers Tècnics de Telecomunicació a Catalunya i Associació Catalana d'Enginyers Tècnics de Telecomunicacions - COETTC - ACETT

<https://www.coettc.info/>

Website of the College of Technical Engineers and Telecommunications Experts of Catalonia. They have a career site for collegiate members, which offers them career opportunities in several fields.

Edutech Clúster

<https://edutechcluster.org>

Hub of companies and educational institutions that work together to apply technology to learning processes. They offer information about the sector, a start-up acceleration service and networking sessions. They also develop educational innovation projects.

Smartech Cluster

<https://smartechcluster.org/es/>

Association dedicated to implementing smart technologies in several business sectors. They conduct outreach and promote collaborative R&D&I, search for funding, training and networking.

B) UNIVERSITIES AND SCHOOLS:

42 Barcelona

<https://www.42barcelona.com/>

Training campus specialised in programming. They adapt to the needs and schedules of students. Before accessing the training programmes, which are free, candidates must undergo a skills assessment test.

Barcelona Digital Talent

<https://barcelonadigitaltalent.com/ca/>

Alliance between public and private institutions dedicated to training in digital talent. They offer reskilling programmes in the ICT sector, organise custom training programmes, have a company directory and publish an annual report about the evolution of digital talent.

Cibernàrium

<https://cibernarium.barcelonactiva.cat/>

Barcelona Activa's technology training centre for students and professionals. All training courses are free.

CIPSA

<https://cipsa.net/>

Computer science college with centres in Barcelona and Bilbao. They have a career site and the option to subscribe to their employment newsletter. Besides, they offer a wide range of training programmes in specific areas of the ICT sector.

Institut Tecnològic de Barcelona - ITB

<https://www.itb.cat/>

ITB is a professional training centre specialised in technology training programmes. Students have the option to complete their training with internships in companies and may benefit from recognition of work-derived experience.

Liceo TIC Training

<https://www.liceotic-training.com/>

Liceo TIC Training offers ICT training programmes, both master's degrees and general courses. They also have a free content section.

Netmind

<https://netmind.net/es/#>

Netmind has a wide training catalogue specialising in the ICT and digital sectors. They offer consulting services to organisations for digital transformation and have the training, resources and certifications necessary to accredit the knowledge acquired.

Universitat Politècnica de Catalunya - UPC

<https://www.upc.edu/ca/graus>

University offering a number of degrees, master's degrees and postgraduate degrees in computer engineering, industrial engineering, telecommunications engineering, etc.

DID YOU KNOW THAT...

Networking, either online or in person, allows you to access to certain **offers that are not published in usual sites**, as well as widen your **contact network**. To network successfully, focus on the relationship as **an exchange** through which useful information is shared and received. So: make yourself visible, interact and share! In exchange, you will receive opportunities, proposals and recommendations that will boost your job search.

REMEMBER!

In the technology industry there are many events with a **speed dating format: 15-minute interviews to previously selected digital talent**, conducted within events such as 4YFN and MWC Barcelona, Sónar +D and Cybersecurity Congress.

FOCUSING

Internet of Things (IoT) refers to the interconnection and interaction between different everyday devices and objects (ranging from a fridge to shoes and clothes) through the network, sensors and software.

05. Networking

A) ORGANISATIONS

22@ Network BCN

<https://www.22network.net/>

Association bringing together the innovation, technology and creative sectors of Barcelona.

Canòdrom

<https://canodrom.barcelona/ca>

Municipal cultural association dedicated to digital innovation. They offer workshops, discussions, series of events, exhibitions, cinema screenings, video game exhibitions and other technology-related activities.

Cercle Tecnològic de Catalunya - CTecno

<https://www.ctecno.cat/>

The Technological Circle of Catalonia is a non-profit private foundation organising networking events. They also publish the Technology Sector Barometre in Catalonia, an annual baseline study that analyses the situation of the sector and its main future trends.

CIONet

<https://www.cionet.com/>

International network gathering CIOs (Chief Information Officers), executives and leaders of the ICT sector.

Disruptive

<https://ptedisruptive.es/>

Website of the Spanish Technology Platform for Disruptive Technologies, an organisation focusing on studying, disseminating and promoting the application of disruptive technologies to Spanish companies and organisations.

European Technology Platform for High Performance Computing - ETP4HPC

<https://www.etp4hpc.eu/>

The European Technology Platform (ETP) for High-Performance Computing (HPC) is dedicated to studying and researching high-performance computing. Their website is in English.

Everis Living Lab

<https://www.everis.com/spain/es/nttdata-living-lab>

NTT Data is a Japanese multinational company. They are one of the main providers of ICT services in the world. They conduct global-scale innovation projects and implement new technologies to test future business models. Everis Living Lab is one of initiatives emerging from this context. It is a space designed to promote innovation through co-creation with the participation of employees, clients, technology partners, and the entrepreneurial and academic ecosystems.

Mobile World Capital Barcelona - MWCcapital

<https://mobileworldcapital.com/ca/treballa-nosaltres/?>

Initiative with both public and private support dedicated to promoting digital entrepreneurship, business digitalisation, digital training and a reflection about the impact of technology in society. They host MWC in Barcelona and founded the start-up platform 4 Years From Now (4YFN).

Tech Barcelona

<https://techbarcelona.com/ca/sobre-nosaltres/>

Private non-profit association working to connect start-ups and give them visibility. They promote entrepreneurship, the attraction of talent and investment from their sites, such as Pier01, located in Palau de Mar, or Pier03, located on Passeig Isabel II.

Tech Talent Center

<https://www.talent.upc.edu/cat/school/ttc/>

Space created by UPC to conduct training and innovation activities related to technology. Their aim is to generate a permanent specialised training catalogue, as well as custom training solutions for companies.

B) DIGITAL RESOURCES:

Meta Data

<https://www.metadata.cat/>

Catalan digital resource about the technology sector offering information about technology, innovation and entrepreneurial network in Catalonia. This media is promoted by CTecno.

Redes & Telecom

<https://www.redestelecom.es/>

Journal publishing news, reports and interviews targeted at telecommunications professionals with the aim to announce and document new future trends.

Techcrunch

<https://techcrunch.com/>

Techcrunch offers international news focused on the world of start-ups and technology. It is in English.

Trece Bits

<https://www.trecebits.com/>

Publication specialised in internet, technology and social media.

DID YOU KNOW THAT...

Attending conferences and events is a **source of knowledge and interest** for any professional. Firstly, conferences and talks available usually shed light on **new trends** in the sector. Secondly, networking areas that are available in these type of events promote new **collaborations and professional opportunities**. All in all, they are a good way to keep yourself up to date and contact companies in your sector.

REMEMBER!

Mobile World Congress introduces the latest **trends in connectivity** and gathers the main leading actors -companies, professionals, research groups...- in technology worldwide.

FOCUSING

The challenge of **digitalisation** affects services and processes of companies in all sectors and **has boosted the demand for ICT professionals**, either by hiring computing services to specialised consulting companies or by recruiting in-house ICT profiles.

06. Conferences and events

4 Years From Now - 4YFN

<https://www.4yfn.com/>

4 Years From Now is the event gathering the whole digital start-up ecosystem. This exhibition for the mobile industry is held in the framework of GSMA MWC to support start-ups, investors and companies so that they connect and launch new business initiatives to the market.

Accelerate

<https://reg.fortinetaccelerate.com/flow/fortinet/accelerate2022/limitless/page/home?tab.eventday=16397584247430017Wtllona.com/ca/agenda/>

Conference about cybersecurity promoted by Fortinet, one of the leading providers of smart protection services in network, applications, Cloud servers and mobile environments.

AI & Big Data Congress

<https://aicongress.barcelona/>

Event about new uses and trends of big data and AI.

Barcelona Cybersecurity Congress

<https://www.barcelonacybersecuritycongress.com>
Congress seeking solutions in matters of cybersecurity.

E-Show Barcelona

<https://eshow.es/barcelona>

Professional fair and congress dedicated to e-commerce, digital marketing, hosting and Cloud, social media, mobile and Internet of Things.

Eurecat Mobile Forum

<https://eurecat.org/eurecat-mobile-forum/>

Congress dedicated to technology innovation applied to mobility.

Festibity

<https://festibity.com/>

Annual celebration organised by the UPC's Faculty of Computer Science of Barcelona (FIB) and FIB Alumni, aiming to be a meeting point where companies in the sector, professionals, the university community, alumni and personalities gather around a great dinner.

First Tuesday

<https://www.firsttuesday.es/>

Recurring meetings of professionals, experts and people interested in the ICT sector.

Gamelab

<https://www.gamelab.es/ca/gamelab-live-cat/>

Digital forum bringing together the global video game industry, offering live streamed talks, workshops and networking sessions for professionals.

IOT Solution World Congress

<https://www.iotsworldcongress.com/>

Annual congress of the Internet of Things industry.

La nit de les telecomunicacions i la informàtica

<https://www.lanit.cat/>

Institutional event uniting organisations and professionals in the ICT sector, organised annually by the official colleges of the sector.
