

Aeroespace Industry

Job search resources

OCTOBER 2015

Ajuntament de
Barcelona

Barcelona
Activa

This document aims to relate the main resources and channels that must be considered for a job search focused on the sector of Aerospace Industry.

The main resources of this sector channels are grouped into the following sections:

Table of contents

01.	Specialized employment websites	4
02.	Recruitment companies and intermediaries	5
03.	Self-Application	6
04.	Societies and professional associations	9
05.	Networking	12
06.	Conferences and events	13

JOB SEARCH RESOURCES

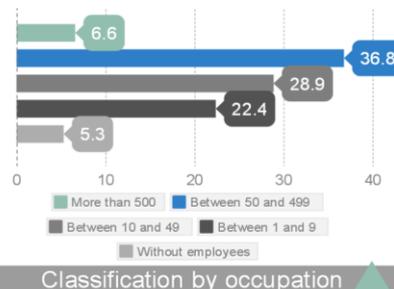

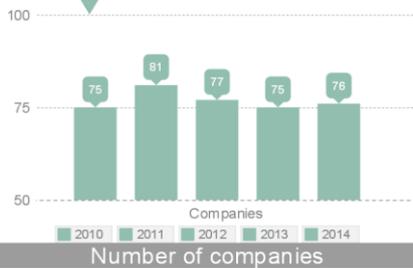

AEROSPACE INDUSTRY

INNOVATIVE SECTOR STRUCTURED IN INDUSTRIAL NETWORK AND COMPLEMENTARY SERVICES FOR THE EUROPEAN AEROSPACE CLUSTER.

COMPANIES' TRENDS

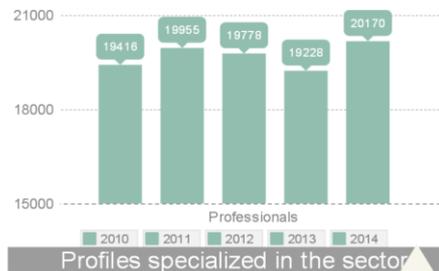

In Spain there are around 76 companies specializing in aerospace, most of an average size between 50 and 499 employees. In Barcelona don't stand out the specific companies of the sector only many companies that offer products or components.

COMPLEMENTARY NETWORK

- 1 Engineering and R+D+i
- 2 Industrials / Mechanical metal
- 3 ICT
- 4 Infrastructure
- 5 Chemistry

EMPLOYMENT TRENDS

Employment in the sector is very stable and with very specialized profiles. Regarding the complementary network usual in Barcelona and Catalonia, engineering and research companies are the most common.

Direct jobs in Spain (2014)

20.170

WE RECOMMEND ...

- 1 A very high proportion of graduates are professionals with specializations in higher engineering.
- 2 English is the working language and is also recommend to have notions of German and French. Companies are big and international.
- 3 In Castelldefels (BCN) there is an incubator for new businesses, ESA BIC Barcelona is a good opportunity to enter in the sector from emerging projects.
- 4 Teamwork, leadership, responsibility, self-confidence will be key to your professional development in this sector.

Source: DIRCE (INE) and Industrial Companies Survey (INE).

01. Specialized employment websites

List of the main specialized websites in the sector that can be found on the Internet.

Ingenieros.es

Its website provides access to several publications, a search engine of training events, as well as a job section with current offers detected on the network.

<http://www.ingenieros.es/en/job>

Pro Empleo Ingenieros

Website that provides several tools, among others, a job search engine of industrial engineering.

<http://www.proempleoingenieros.es/>

Tecniberia

Website that, among other services, collects offers detected on the network, as well as those offered by members *l'Asociación Española de Empresas de Ingeniería, Consultoría y Servicios Tecnológicos*.

<http://empleo.tecniberia.es/>

Tecnoempleo.com

Its website contains, among other sections, job offers specialized in Computation and Telecommunications. By entering keywords related to aerospace companies vacancies can be found in this area.

<http://www.tecnoempleo.com/>

Advice

It would be a good idea to complete your job search in portals and specialized consulting with that ones that professional associations publish in their websites. The engineering uses the services of these entities.

02. Recruitment companies and intermediaries

List of companies and intermediary organizations specialized in this sector, which permanently perform search process and selection of professionals.

Adecco Aeronáutica

Specialization branch within the category Office&Industrial from the group specialized in intermediation of staff in Adecco.

<http://www.adecco.es/SobreAdecco/ServiciosOfficeAeronautica.aspx>

Select-Ing

Profile selection consultancy specialized in engineering profiles, national and international level.

<http://www.select-ing.es/ing/index.htm>

Advice

Also check the job offers from consultancies and recruitment companies that you will find in the channels of general research report, doing a search by category Engineering. Also, you can register your resume or make the companies get your application to they know your profile and might consider you in their processes.

03. Self-Application

List of Companies and organizations leading the sector in which you can address a proposal of collaboration or a working incorporation.

Aertec Solutions

Aertec is a consultancy dedicated to both industrial processes and systems. Located, among others places, at the airport of Barcelona, has a section of job offers.

<http://www.aertecsolutions.com/jobs/?lang=en>

Airbus Group

Link to the offers available in the European construction group.

<http://www.airbusgroup.com/int/en/people-careers.html>

Applus

Company of testing, inspection and certification. Its website shows the current offers from all divisions.

<http://www.applus.com/en/careers>

Alten España

Technological consulting with projects in several parts of the state, also shows vacancies in Barcelona.

<http://www.alten.es/>

Altran España

Engineering and consulting company with projects in Barcelona.

http://www.altran.es/careers/ofertas-empleo.html#.Vh_tPNLhBkg

Aritex

Headquartered in Badalona, this industrial supplier company of automotive and aerospace sector, allows to send the application. You will also find the offers available.

<http://www.aritex-es.com/en/work-with-us/envianos-tu-c-v/>

Arghos

Company belonging to Grupo Aernnova, specialized in consulting and engineering services. Headquartered in Madrid, has projects around the state. It has job offers in the province of Barcelona.

<http://www.jobs.net/jobs/arghos-es/es/>

Atos Origin

Atos Origin is an international IT Services and Product Engineering. On the website there is an accessible space with current offers and the possibility of sending the application.

<http://es.atos.net/es-es/home/empleo/ofertas-de-empleo.html>

BCN Consulting Group

Barcelona-based consultancy specialized in global engineering projects.

<http://bcncgroup.com/careers.html>

Boeing

The website of this American constructor contains an employment section.

<http://www.boeing.com/careers/>

CT Ingenieros

Company of engineering and technological innovation. It belongs to the Engineering group, provider of the leading aerospace industry, among other sectors.

http://www.ctingenieros.es/index.php/trabaja-con-nosotros?idioma_id=4

Dassault Systèmes España

Innovative consultancy based in Sant Cugat del Vallès, among others. It contains a section of current offers of the Group worldwide.

http://www.3ds.com/no_cache/es/jobs/empleos/

GMV

Technological consultancy based in L'Ametlla del Vallès among others, offers on its website a section on employment.

<http://www.gmv.com/en/Employment/index.html>

GTD System & Software Engineering

Engineering based in Barcelona, among others. It has a section from which to send the application and check current job offers.

<http://www.gtd.es/en/work-us>

Gutmar

Company based in L'Hospitalet de Llobregat, which provides comprehensive mechanical precision services.

<http://www.gutmar.com/index.php?lang=en>

Indra

Innovation and technology consultancy with offices in Barcelona and Badalona, among others. The section "Trabajar en Indra" gives access to register the resume, as well as check the current job offers.

<http://www.indracompany.com/en/tu-carrera-en-indra/trabajar-en-indra>

Matis España

Company that offers technology consulting and engineering services. Opening the section of "menu" you can access to the space "Join Us."

<http://es.matis-group.com/en/content/welcome-matis>

Mazel Ingenieros

Consulting, engineering and production of prototypes for several sectors, with headquarters in Abrera. Available the section "Job Opportunities".

http://www.mazel-ingenieros.com/ingles/default_ingles.htm

Advice

Many companies and consulting firms belong to international groups, which promotes geographic mobility. Mastery of English is therefore of value to extend this possibility because it is the main language of reference in this sector.

Pildo Labs

Pildo Labs is a Catalan company of consulting and engineering. It has a section on the website to submit the application.

<http://pildo.com/workwithus/>

RDT Ingenieros

Company that provides engineered solutions and innovation. It has headquarters in Barcelona. It allows to send the application.

<http://www.rdtingenieros.com/eng/careers.php>

Segula Technologies

This section of the technology consulting and innovation brings to the business listing of the company in the Infojobs and Infoempleo websites, as well as LinkedIn and Twitter. You can also submit your application.

<http://www.segula.es/en/human-resources/sendCV>

Sener

Technology services company of design and construction, based, among others, in Cerdanyola del Valles. This section connects with its business listing in Infojobs.

<http://www.sener.es/working-in-sener/en>

Thales

Multinational company based in Badalona that is leader in strategic solutions for the aerospace, spatial, defense, security and transportation sectors. The website includes a portal for the management of new applications.

<https://www.thalesgroup.com/en/homepage/careers>

Advice

The aerospace industry requires the involvement of many actors, from industrial suppliers, through proper construction companies, consultancies testing, certification and engineering technology. It is advisable to expand the job search to companies involved in the design, production, assembly and commissioning of an airship and / or its components.

04. Societies and professional associations

The societies and associations of companies and professionals of the sector provide information and guidance services, and very often job offers.

a) Societies and professional associations:

Catalan Association of Telecommunications Engineers of Catalonia

You can consult the job area and make a search of training or you can access to professional guidance services, among many other services.

<http://www.telecos.cat/Inicio.aspx>

Association of Industrial Engineers of Catalonia

Job search section for collegiate and members of the Association. Also available a business directory and a search engine for group of services and specialization sector.

<http://www.eic.cat>

Spanish Association of Air Companies

Corporate website which brings together supply and demand in the labor sector. It also allows access to the directory of associated companies adhered by categories.

<http://www.aecaweb.com/>

Spanish Trade Union of Aircraft Maintenance Technicians

Provides information on aeronautical regulations and announcements of examinations and you can access directly to a range of job opportunities for affiliates.

<http://www.asetma.com>

Official Association of Aeronautical Engineering

On the website there's relevant information about the organization, as well as a calendar of events, links of interest on events, news, job vacancies for members and other value added services.

<http://www.coiae.com/>

Official Association of Telecommunications Engineering

You can check links to job websites, forums and international work (restricted access).

http://www.coit.es/index.php?op=empleo_listado

Official Association of Aeronautical Engineers

Among the usual services such as training, newsletters and information about the profession, it provides access to job offers for members.

<http://www.aeronauticos.org/>

Official Association of Computer Engineering of Catalonia

It has a service of professional guidance with tools for finding a job, change or establish a career plan. It has a database of companies in this sector.

<http://www.enginyeriainformatica.cat/>

Official College of Telecommunications Engineers and Experts of Catalonia

Its website contains useful information regarding publications, search training and events, plus a private access to the area of job offers.

<http://coettc.com/>

b) Universities and Training Centers:

Aeroclub Barcelona-Sabadell

The website includes training in piloting airplanes and a calendar of events for the aeronautics sector, among other information.

<http://www.aeroclub.es/>

Escola d'Enginyeria de Telecomunicació i Aeroespacial de Castelldefels

The website provides access to information of their studies.

<http://eetac.upc.edu/en/>

La Salle - Universitat Ramon Llull

Shows the available training in engineering.

<http://www.salleurl.edu/?idArea=2>

UAB – Universitat Autònoma de Barcelona

The website contains information about Masters and PhD, among other information of interest.

<http://www.uab.cat/web/studying/official-master-s-degrees/general-information-1096480962610.html?param1=1096482866243>

UPC – Universitat Politècnica de Catalunya

Access to offer of Master, degrees in engineering.

http://www.upc.edu/?set_language=en

Advice

The sector is looking for professionals updated on the latest aeronautical news. It's advisable to keep abreast of developments in the sector, forming constantly. This will show you as a professional updated in the sector.

c) Other entities of interest:

AENA

Its website gives access to the job offer section, among other useful information.

<http://empleo.aena.es/empleo/SessSrv?accion=seleccionar&leng=EN&SEDE=0>

CSIC - Consejo Superior de Investigaciones Científicas

Public institution dedicated to research in Spain, assigned to *Ministerio de Economía y Competitividad*. Among other useful information, the website has a job offer section of interest for the professional profiles in this sector.

<https://sede.csic.gob.es/servicios/formacion-y-empleo/bolsa-de-trabajo>

d) Other resources of interest:

Actualidad aeroespacial.com

Portal aimed at professionals of the aeronautics and space. Here you can find all kinds of news related to these sectors.

<http://www.actualidad aeroespacial.com>

Aviaciódigitalglobal.com

International website with aeronautical information.

<http://www.aviaciondigitalglobal.com>

Infoespacial

Specialized blog that contains information of the sector and the companies working there. Of particular interest with regard to the spatial specialization.

<http://www.infoespacial.com/ie/>

05. Networking

Spaces and platforms where you can find other professionals, companies and organizations that lead and energize the sector.

ESA Business Incubation Centre Barcelona - ESA BIC Barcelona

Incubator of companies related to the aerospace industry. Here are promoted spaces of interaction and meetings between professionals and industry experts.

<http://emprenedoria.barcelonactiva.cat/emprenedoria/en/emprenedoria/incubadores/homeesa.jsp>

Advice

Prepare the elevator pitch to attend these meetings with a presentation message of profile and portfolio of projects, the most concise possible, conveying few ideas but getting aroused the interest of your partners. Transmit emotions, that way will be obvious that you are passionate about what you do.

06. Conferences and events

The most important events and activities in the sector.

To keep abreast of major industry events that take place in Barcelona follow the twitter profile [@barcelonactiva](https://twitter.com/barcelonactiva)

AEROPOLIS

The Science and Technology Park dedicated exclusively to the aerospace industry of *Andalucía* organizes seminars published on its website.

<http://aeropolis.es/en/>

AIRTEC

International aerospace exhibition.

<http://airtec.aero/>

BCI Aerospace

Information related with the upcoming events and meetings of industry of aerospace and defense at international level, organized by *BCI Aerospace*.

<http://www.bciaerospace.com/calendar/>

Advice

The specialized publications report about meetings, conferences and more representative events of the sector. Follow digital profiles of the most interesting in your profile, professional associations and organizations, so you will be abreast of conferences, meetings and workshops.

You can find more information in the section *Channels for the job search* into the area *Tools* of the web [Barcelona Treball](http://www.barcelonatreball.com)
